

Candidate Profile

Boo Engstrand (57)

is running for the position of president and delegate

Academic background:

- Mechanical engineer
- Technical writer, Karlstad University
- Archivist, Karlstad University

Professional career:

- Mechanical engineer, HIAB
- Mechanical engineer, Volvo Aero
- Technical writer, Ericsson Programatic
- Senior Information Engineer, Ericsson Research
- Senior Information Engineer and co-founder, InfoHouse
- Senior Information Engineer, Sigma
- XML-expert, Simonsoft
- Co-founder, Autotech Teknikinformation i Karlstad AB
- Co-founder, AB Devarion

Professional experience in technical communication:

Worked as a consultant more or less since 1989 and have loads of experience in technical communication, both in many different areas. Been on the board for former FTI (now tekomp Sweden) for 8 or 9 years, I believe.

Goals:

I hope that I can help with the transition from FTI to tekomp Sweden in a good way. Hopefully we can bring our members something more than just a conference once a year. And maybe I can bring some Swedish experiences to the tekomp table as well.
