

Candidate Profile

Jennie Bergström (47)

Senior information engineer, AB Devarion
is running for the position of secretary

Academic background:

- Högskolan i Skövde, 1992-1997, Product Design, B.Sc.
- Kattegattskolan i Halmstad, 1988-1992, 4-årig byggteknisk

Professional career:

- AB Devarion (former Autotech i Karlstad AB), 2011-present
Co-founder, senior information engineer
- Sigma Kudos, 2001-2011, information engineer
- Translator Teknikinformation AB, 1997-2001, information engineer

Professional experience in technical communication:

Over the years, I've worked as a technical writer, project manager, program manager, system manager, and release manager. Most of it at Ericsson. Right now I'm working with improving their customer documentation covering the integration and O&M areas for radio base stations.

Goals:

I hope that we as an organization will be able to thrive more now when we have more people in a larger organization to cooperate with. I hope that all our members will take the opportunity to participate in everything that tekomp has to offer. For me as a secretary delegate? My highest priority is to write the protocol at our meetings. Then I'll see what else I can participate in.
