

Candidate Profile

Sarina Herrmann

is running for the position of delegate.

Academic background:

From 2003 to 2007 I studied at the University of Applied Sciences in Hannover and obtained the degree “Diplom-Redakteurin (FH)” in the field of technical communication.

Professional career:

Since 2007 I have been working as a technical writer for various companies, mainly in the field of mechanical engineering. To name a few: Bosch, HYDAC and KEMA.

Professional experience in technical communication:

As a technical writer, I mainly focus on the following topics:

- Compliant user information according to machine directive.
- Topic-based writing.
- Process improvement for editorial processes.

Goals for my role as delegate:

As a delegate I would like to:

- Increase the recognition of the field of technical communication here in the Netherlands.
- Improve the exchange of experience and knowledge between technical writers.
