

## Candidate Profile

### **Marie Rångeby**

is running for the position of vice president.

### **Academic background:**

Technical gymnasium

University classes in : Adult pedagogy and Mathematics

YH Technical Communicator

### **Professional career:**

I have mainly been working within Engineering, Management, Process- and Project management in the Truck Development industry for 26 years.

### **Professional experience in technical communication:**

No experience so far but planning to start a new career after YH education.

### **Goals for my role as vice president:**

In the country organization we see a need for more Technical Communicators in the future, We also see that there are specific and focused educations offered to assign new Technical Communicators.

As a delegate in the Swedish team I will be working with educational and other questions related to how we can improve to support new Technical communicators in their new role, how we can use their former experiences in a good way as well as in general with questions related to competence development.
